

# Highway Heavy Haul

## Operational Information

Wyoming to Texas—1835 Miles

14 axles with 104 tires on the ground

Many months of planning was required to find routing to handle weight, width, and height of this vessel. Perkins worked with telephone, electric, and cable companies to identify spots on the route that required the lifting of over head lines. The transport of the vessel took place in November and December. Perkins ran into all types of weather including snow and below zero temperatures.

## Size & Weight

	<u>Shipment</u>	<u>Permits</u>
Length	72'03"	188'07"
